DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

Three (3) sheets of drawings were filed on August 28, 2003.

The drawings are objected to for the following reasons:

Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The abstract of the disclosure is objected to because the abstract exceeds 150 words and is more than one paragraph. Correction is required. See MPEP § 608.01(b).

Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Objections

Claim 7 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim *should refer to other claims in the alternative only, and/or, cannot depend from any other multiple dependent claim*. See MPEP § 608.01(n).

Accordingly, the claim has not been further treated on the merits.

Claim Rejections - 35 USC § 112

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1-9; the claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. Claims 1-9 have not been considered with respect to prior art, because they are too unclear.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Clark et al. (US 4,708,429); Kusuyama et al. (JP 1-309011 A); Nakagawa (JP 7-151937 A); Hwang et al. (US 6,826,328 B2); Laor (US 4,787,695); Bulman et al. (US 2003/0108288 A1); and Filas et al. (US 6,088,504) each disclose optical modules having optical fiber fixed within ferrules or fixation pipes with solder.
